Python	Java
Gameplay	User Experience
Programming	Design

• INTEREST

Videogame

Animation

• EDUCATION

2019 - 2023

INTERNATIONAL UNIVERSITY - VNU

Computer Science, GPA: 3.0

• PROJECTS

STUDYFM

- Developed an online YouTube music streaming website using Vite.js and React.js, enabling users to listen to live stream music.
- Implemented responsive design for optimal user experience across devices.

NETFLIX CLONE

- Built the frontend of a Netflix clone using the MERN stack, replicating the original website's look and functionality.
- Implemented dynamic content rendering and user authentication with React and Redux.
- Collaborated with a team for backend integration.

BATTLESHIP

- Recreated the classic battleship game using HTML, CSS, and JS
- Developed multiple difficulty levels and implemented CPU opponents
- Designed and optimized the game's user interface for intuitive gameplay
